WEB/FRONTEND DEVELOPER

OBJECTIVE

A passionate web frontend developer for creating innovative and user-friendly websites. Proficient in HTML, CSS, JavaScript, and various front-end frameworks. Have a goal to grow in tech and learn more.

SKILLS

- SKILLS : HTML CSS SASS JAVASCRIPT
- FRAMEWORK : JQUERY BOOTSTRAP
- EXTRA: GITHUB MEDIA SCREEN

PROJECT

- NETFLIX CLONE
It's an clone of Netflix front page to made this I used html to create a structure And CSS to style it and made it to look like a Netflix.
<https://abhishek-kumar-sethi.github.io/netflix-clone/>
- TODO LIST
A to-do list, often abbreviated as "To-do list," is a simple yet powerful organizational tool used to manage tasks, activities, and responsibilities. Essentially, it's a list of items or actions that an individual needs to complete or accomplish within a certain timeframe.
<https://abhishek-kumar-sethi.github.io/Quiz/>
- AMAZON CLONE
It's an amazon front page clone I made this clone used Html CSS and JavaScript
<https://abhishek-kumar-sethi.github.io/amazon-clone/>
- QUIZ
It's a MCQ quiz that gives you some question related to language you have to answer them and they show you. Your score on score board. There is also a button that will reveal answer of each question after complete the MCQ.
To made this I used html CSS and JavaScript
<https://abhishek-kumar-sethi.github.io/todo-list/>
- IMAGE SLIDER
Image slider have a multiple image. And there is two button previous button to show previous image and next button to show you next image.
<https://abhishek-kumar-sethi.github.io/image-slider/>
- DIGITAL CLOCK
It's an digital clock that shows a current time of the world

To made this I used HTML CSS JAVASCRIPT
